PROJECTS

Smart Cafe Management Application

- Created a portfolio for a responsive website that presents a modern solution for cafes looking to enhance customer experience and operational efficiency. By leveraging a server-less, application-based system.
- Using figma as a major tool, conducted user research, created wireframes, and iterated based on feedback to produce a user-centric interface.

Chatbot Song Recommender System

- A Python-based project that utilizes natural language processing (NLP) and machine learning techniques to recommend songs to users.
- The chatbot interacts with users, understands their music preferences, and suggests songs accordingly.

INTERNSHIPS

Teachnook – Data Science

- Conducted data cleaning, preprocessing, and exploratory data analysis (EDA) using Python libraries such as Pandas, NumPy, and Matplotlib.

Codsoft – Data Science

- Developed and implemented machine learning models to analyze large datasets, focusing on predictive analytics and data-driven decision-making.
- Collaborated with a team to work on real-world data science projects, including customer segmentation, sentiment analysis, and recommendation systems.

SKILLS

- Languages : HTML, CSS, Python, C, SQL, Java (basic)
- Tools : Excel, Power BI, PowerPoint, GitHub
- Other Skills : Canva, Figma
- Soft skills: Public speaking, Content writing, Team work, Leadership

ACHIEVEMENTS AND CERTIFICATIONS

- Received Cash Prize for Game Design using Virtual Reality in Vriddhi Event 2023.
- Microsoft Certified Azure AI Fundamentals.
- Coursera Certified Cyber Security Fundamentals.
- Participated in Nasa Hackathon and SIH 2023.
- Pearson Mepro Level 10 Expert.
- Participated in The Strategy Paradox of the Avartan 2023 organised by IIM Mumbai.
